Viola - Wooden Base

The Viola Timber Base chair is the perfect combination of style and durability. This chair has been rigorously tested to meet the ANSI BIFMA Quality Verification Standard, ensuring that it meets the highest standards of quality and durability.

The chair's back frame is made from a high-quality PP + Fibre plastic material, providing excellent support and comfort. The solid wood base is crafted from natural oak, which not only adds to the chair's sturdiness but also gives it a touch of elegance.

◆ Natural Oak Base

Viola - Sled Base

The Viola Sled Base chair, a sleek and stylish seating option. This chair has been designed and tested to meet the ANSI BIFMA Quality Verification Standard, ensuring that it is of the highest quality. The chair features a fabric back and seat, made from high-density foam that moulds to your body, providing a comfortable seating experience.

The 12mm solid steel tube sled base is available in black or white powder-coating, making it a perfect fit for any office or home decor. Designed for easy line-up and button-up assembly, it is a great choice for anyone looking for a comfortable and durable seating option that is both stylish and functional.
